

**COVID-19 Update from Richard O'Brien,
Owner of Applebrook RV Parks**

May 6, 2021

Our top priority continues to be the safety of our campers and employees. We are closely following the latest CDC and Department of Health guidelines, as well as Executive Orders from local, state, and national officials.

- We have disseminated CDC and other educational materials for steps to protect yourself as well as others, plus information about social distancing.
- Both campers and staff are encouraged to wear face coverings in the office. According to the CDC, masks protect the wearer and those around them and help prevent the spread of COVID-19 through respiratory droplets.
- All public places (including the pool, recreation hall, bocce ball courts, horseshoe pits, etc.) masks are not required. We ask guests to use their common sense.
- Guests must also follow CDC Guidelines, which requires 6-foot social distancing from people not in their immediate family/party.
- Pools are open with a limited capacity of 50% or less, which is 17 people.
- Playgrounds, Volleyball, Basketball, tetherball, and similar activities are open.
- Horseshoes are allowed as long as social distancing is maintained, and face coverings are worn.
- Dog parks are open.
- There is no shared use of common area kitchens.
- Campfires allowed at individual campsites, subject to social distancing restrictions.
- RV park offices are open but restricted to one guest or two associated guests at a time.
- We have increased janitorial services.
- We are disinfecting light switches, pens, keypads, and doorknobs between guests' usage.
- Plexiglas shields have been installed at RV park offices.
- Shared popcorn and coffee maker usage has been suspended.
- RV campers are encouraged to use their own bathroom whenever possible.

We continue to offer:

- Open RV Parks in New Orleans, throughout Florida, plus our RV park in Saratoga Springs, NY, and Atlantic Blueberry RV Park in New Jersey.
- Outdoor hospitality with friendly, personalized communities that care.
- Spacious distance from neighboring campers.
- A long list of outdoor activities for each RV park, many of which are near state parks, walking trails, lake or river fishing, etc.
- Vacation cottages for rentals of one month or greater. (We are limited to long-term rentals due to increased cleaning.)
- We are still accepting new guests and reservations.
- Our seasonal reservations remain high, as campers seek home away from home situations.

We appreciate your patience as we adjust the policies based on official guidelines set by health officials!
